

End-to-End Knowledge Test

A controlled, fictional source document for validating upload, processing, vector indexing, semantic search, agent answers, conversation memory, and source grounding.

Document marker: RAG-QA-ORION-2026

Purpose

This document contains deliberately precise facts. A correct RAG pipeline should retrieve these facts without inventing alternatives. All people, organizations, contacts, budgets, and policies in this document are fictional.

ANNUAL LEAVE

24 business days

EXPENSE THRESHOLD

SAR 750

ORION LAUNCH

15 Nov 2026

Generated on 10 August 2026 for Mini RAG quality assurance. Version 1.0.

1. Atlas Innovations Employee Policy

Atlas Innovations uses the following policy for all permanent employees assigned to its Riyadh office. These rules supersede informal team practices.

Policy area	Approved rule
Annual leave	Permanent employees receive 24 business days of paid annual leave per calendar year. Up to 5 unused days may be carried forward, but they must be used by 31 March of the following year.
Probation	The probation period is exactly 90 calendar days from the employee's official start date.
Remote work	Employees may work remotely on Tuesday and Thursday, with a maximum of two remote days per week. Core collaboration hours are 10:00-15:00 Riyadh time.
Expenses	Any single expense above SAR 750 requires approval from both the department manager and Finance. Receipts must be submitted within 10 calendar days.
Security incident	A suspected security incident must be reported within 30 minutes to security@atlas-innovations.example. Critical incidents also use the fictional hotline +966-11-555-0199.

Policy interpretation

The SAR 750 approval rule applies to one expense transaction, not the monthly expense total. A transaction of exactly SAR 750 does not require the additional two-party approval; only an amount above SAR 750 does.

2. Project Orion Delivery Brief

Project Orion is Atlas Innovations' controlled pilot for an internal knowledge assistant. The following values are the approved baseline.

Field	Approved value
Project lead	Salma Nasser
Launch date	15 November 2026
Approved budget	SAR 1,800,000
Pilot region	Riyadh
Beta milestone	30 September 2026
Success criteria	Median answer latency below 2.5 seconds and a grounded-answer rate of at least 92 percent on the approved evaluation set.

3. Data Retention Rules

Source documents	Retain for 365 days after project closure.
Evaluation reports	Retain for 90 days.
Conversation memory	Delete when the user explicitly confirms a deletion request.

Grounding note

If a requested fact is not present in this document, the assistant should say that the source does not provide it. It should not infer or fabricate missing names, dates, amounts, or policy exceptions.
